

ABOUT ME

Design Consultant with a background in Product and Service Design, specialising in **user research, service design & strategy** and **digital experiences**.

I guide projects from discovery to implementation, **translating user insights and business needs** into practical, **human-centered solutions** through collaboration and systems thinking.

WORK EXPERIENCE

Design Consultant

Business Integration Partners S.p.A.

June 2026 - Present

Part of Officina, BIP's multidisciplinary Center of Excellence, applying **collaborative** and human-centered **methodologies to management consulting**, my responsibilities are:

- **Coordinate** research, service design and UX/UI activities from discovery to implementation.
- **Design and deliver end-to-end service and digital experiences** in collaboration with clients, users, suppliers and cross-functional teams.
- **Redesign** core service processes, customer journeys and operational workflows to **improve** both **customer experience** and **organisational efficiency**.
- **Produce customer experience reports** by combining **quantitative** and **qualitative research**, transforming data into actionable insights.
- **Facilitate co-design workshops** and align **multidisciplinary stakeholders** throughout the design process.
- **Work with clients** across **multiple industries**, including energy, banking, telecommunications.
- **Lead internal strategic initiatives** to strengthen the **team's positioning** within the company, foster relationships with managers and partners, and better **align** our capabilities **with evolving client needs**.

Junior Design Consultant

Business Integration Partners S.p.A.

Jan 2025 - June 2026 · 1,5 years

- **Contributed to designing** and improving services and digital experiences across the utilities and telecommunications sectors.
- **Conducted user research**, service mapping and customer journey analysis to identify opportunities for innovation.
- **Contributed** to planning and facilitating **co-design workshops** and translated research insights into actionable design recommendations and client deliverables.
- **Took increasing ownership of projects**, leading to promotion to **Design Consultant**.

Design Intern

Business Integration Partners S.p.A.

Sep 2024 - Dec 2024 · 3 months

Internship completed during my Master's thesis, following my second exchange programme.

- **Supported** service design and **customer experience projects** through user research, service mapping and journey redesign.
- **Supported workshop preparation**, research analysis and the development of **project deliverables** for clients and multidisciplinary teams.
